Jordan Rivera

Operations Analyst | Process Improvement · Reporting

Denver, CO | (555) 010-0142 | jordan.rivera@example.com | example.com/jordan

SUMMARY

Operations analyst who maps processes, writes the procedures, and builds the reporting that keeps them on track.

EXPERIENCE

Juniper Freight Co. | Operations Analyst — 2023 – Present

Denver, CO

- Mapped the returns process with warehouse leads and wrote 12 SOPs that new-hire onboarding now uses.
- Automated invoice exception reports with **Python**, saving the billing team about 6 hours a week.
- Built a **daily on-time delivery dashboard** in Tableau over about 40,000 shipments a month, replacing three manual spreadsheets.
- Wrote SQL and dbt models for carrier scorecards used in weekly dispatch reviews; late pickups fell 18% over two quarters.

Cobalt Ridge Health | Data Coordinator — 2021 – 2023

Aurora, CO

- Kept scheduling data clean across four clinics; resolved 300+ duplicate patient records with a repeatable SQL check.
- Produced monthly utilization reports in Excel and **Power BI** for clinic managers.
- Trained 15 front-desk staff on the scheduling system's reporting views.

Mapleton City Library | Circulation Assistant (part-time) — 2019 – 2021

Mapleton, CO

- Handled checkout, holds, and patron accounts; built the shift-coverage sheet the branch still uses.

SKILLS

Operations: Process mapping, SOP writing, carrier and vendor scorecards, inventory planning
Analytics: SQL (PostgreSQL, Snowflake), Python (pandas), dbt, Excel (Power Query, pivot tables)
Reporting: Tableau, Power BI, Looker Studio, KPI design, executive summaries

EDUCATION

Lakeside State University | B.S. Business Analytics — **2021**
